Guidelines for Wall Painting at the Gram Panchayat Level

Background: IEC plays an important role in generating awareness in the community. The Department implements IEC activities at periodic intervals on various themes to raise awareness in the community and to facilitate behavior change.

In the past, i.e. in 2013-14, wall paintings were done at the GP level on different themes such as 1000 Days approach, Annaprasanna Diwas and on entitlements under decentralized SNP. The recently released NFHS-4 results reveal that the State is doing well on all nutrition indicators except Wasting where there is a marginal increase. With regards to the other indicators on child feedings practices, it is observed that there is a marked improvement on all indicators except Complementary feeding.

There is a felt need to strengthen interventions on IYCF so as to bring about a considerable improvement on the nutrition and child feeding indicators. Other than the print and electronic media, mass media in the form of wall paintings is a powerful medium to reach out to the community. Messages on IYCF shall be promoted among the beneficiaries through the wall paintings at the GP level.

- While selecting the location\Space for the wall painting, preference may be given to do it on the outside wall of the Anganwadi Centre or nearby locations, Panchayat offices and other prominent locations for wider dissemination of the information.
- Moreover Wall Painting should be done in those areas where the awareness level and practice related to above mentioned theme is low or poor.

Specifications:
